

RKR87:

- ✓ **TKL Tenkeyless 80% Layout (87 Keys):** With a clean design language and a simple 80% layout, this keyboard saves you a lot of space while retaining all the essential keys you need.
- ✓ **Wired Mode:** The simple wired mode connection allows you to connect the keyboard with your devices in a plug-and-play manner, while significantly reducing weight by removing the built-in battery.
- ✓ **Per-Key RGB Lighting:** 14 backlit modes can be easily turned on and switched between each other according to your mood. Lighting brightness and speed adjustment is supported. It also features two RGB sidelights to better suit your gaming environment.
- ✓ **Hot Swappable PCB:** The PCB is compatible with mainstream 3-pin and 5-pin switches (north facing LED lights). Plug and play, no soldering required.
- ✓ **Full-Key Anti-Ghosting:** This feature, also known as N-key rollover, ensures that all simultaneously pressed keys are registered correctly. It can avoid missing keystrokes and significantly improve your gaming performance.
- ✓ **Dual Foam Dampeners:** It comes with case and PCB foam dampeners that effectively reduce typing noise and improve acoustics.
- ✓ **Adjustable Stands:** The 2-tier foldable stands on the back can raise or lower the keyboard height and adjust its tilt slightly. This provides more options for your various needs.
- ✓ **Hidden Cable Grove:** The USB-C port is located in the center of the back case and integrated with a hidden cable grove, so you can hide your detachable cable inside it, making your table tidier and more organised.
- ✓ **Easy OS Switching:** You can easily switch between various operating systems by pressing the key combination Fn+S at any time.
- ✓ **LED Indicators:** There are 4 LED indicators just above the number pad to notify you of status such as connection mode and operating system.
- ✓ **Side Printed Keycaps:** Some legends are printed on the front of the premium ABS keycaps. So, you will always know which keys to press for RK special functions.
- ✓ **Detachable USB-C Cable:** The included USB-C cable is detachable and comes with a USB-C to USB-A converter, so you can easily connect the keyboard to your device, whether it is a USB-C or USB-A port.
- ✓ **Dust Cover:** It comes with a clear dust cover to keep your keyboard clean all the time.
- ✓ **Wide Compatibility:** The keyboard is compatible with various devices such as PC, Mac, mobile phone, tablet and PS5, and multiple operating systems including Windows, MacOS, Linux, Android and IOS.
